Hand Strap
Design

PT101 is a rugged Android tablet with powerful performance and perfect portability. It is suitable for a variety of high demanding environments, and comes with optional accessories such as docking station to provide flexibility. Its wrist strap is convenient for users to hold easily, reducing hand fatigue caused by long-term use. PT101 also supports Android 9, and is equipped with a 4800mAh large-capacity battery to provide ultimate user experience. It is the best match in each work environment.

Single-Hand Design, All-Day Productivity

The hand strap design provides extra protection and eases the user's fatigue during the hours of operation.

The Most Intuitive Android Version, The Ultimate User Experience

PT101 features the Android 9 operating system to deliver the ultimate user experience.

Huge Battery for Long-Lasting Use

PT101 is equipped with high capacity 4800mAh battery and lasts up to 268 hours of standby time.

Powerful Functionality

PT101 is designed to be the perfect portable computer you need. It is one of the powerful and rugged tablets on the market today and features the latest technology and comprehensive functionality. The 10-inch tablet is suitable for a variety of environments such as retail, logistics, field workoperating, manufacturing or warehousing.

Durable and Flexible Use

PT101 has passed 1.2-meter drop tests, and is also available with a variety of optional accessories including pistol grip (with and without scanner), external battery pack, magnetic stripe reader (MSR) and single charging rack to enhance multi-scenario applications.
